

Frontier Blockchain Project For an Australian Fintech Company

How rolling out a robust Ethereum-based solution empowered a fintech company to rewire the whole HR industry, take an international blockchain jobs platform by storm, and win the users as the **first blockchain app in recruitment**.

Challenge

Chrono.tech was looking for talented blockchain specialists. They needed engineers to maintain smart contracts, performance optimization, security audits, research and technical development implementation.

Solution

To complete customer's request, we ran security audit and created:

- ERC20 tokens and their advanced management systems (blacklists, multi owners, limits, extended access rights);
- Crowdsale contracts (multi-currency support, ERC20 Donations, external price tickets, start/stop dates (blocks), limits);
- Exchange contracts;
- Vesting contracts;

Technologies

- Ethereum
- Solidity
- Truffle
- geth

Parity Networks:

- Mainnet, Kovan / Rinkeby
