

Client-Facing Content Pool For a Consortium of 70+ Large Enterprises

How developing a user-friendly mobile content pool helped a Germany-based association of commercial companies and institutions to **streamline the way their clients track the consortium's news and activities** in business, education, and culture areas.

Challenge

Association of the large enterprises, wanted to provide the software which would allow informing the clients on news of association and provide reference information about their activity.

The application should give opportunity of viewing of information of various formats, integration with one of content control systems.

Solution

We have developed the application meeting the set objectives, which allows looking through information of the following types: HTML pages, video, images, PDF. The mobile application is integrated with WordPress CMS.

Technologies

- Titanium Mobile Framework
- Cocoa Touch API, UIKit framework
- WordPress CMS
